> BISBEE, October 31, 1895. A SAD CASE.

Word was brought in here last night that Wm. Wolverton, the well known teamster, was deranged and was lost in the mountains about six miles from here. From Ed. Thompson, who brought in the news, we learn that Wolverton was at his ranch on Monday last and left there, coming in this direction. Yesterday in coming up the canyon he ran across his horse, the bridle being taken off and tied behind the saddle. Mr. Thompson made a search in that vicinity but failed to find any trace of the missing man. He then came to town to organize a searching party, when it was learned that Wolverton had eaten breakfast yesterday here yesterday morning, h was afterward seen at nine o'clock about a mile below town where hasked an acquaintance for a chew of tobacco, after that all trace of him has been lost as far as could be learned last night,

A searching party, consisting of Deputy Sheriff Graham, Ed. Thompson and Jas. Dodson, left late last night to look for him.

Wolverton's mania is not in any way violent and is the result of falling from an ore wagon and having his head severely cut. He is well known here where he drove team for Jimmy Carr in early days. His many triends here hope that his affliction is only temporary and that he will soon be restored to his reason and health.
